## France Avenue Pedestrian Improvement Project

Dear Stakeholder:

### Construction to begin!

We are excited to announce that construction activities are scheduled to begin on April 7. We look forward to working with Thomas & Sons, Inc. on this project. Communication is a key component of this project. Every Friday we will email weekly construction updates. If you are aware of someone who would like to receive these updates but do not have access to a computer, please let me know and I will provide printed updates.

### Stage I: Hazelton Road to W. 69<sup>th</sup> Street – Phase I

Work will begin at W. 70<sup>th</sup> Street with the replacement of the traffic signal. A temporary traffic signal will be installed while the work is taking place.

### Traffic Control

Traffic control and lane reductions signage will be set up beginning next week. The contractor will set up barrels to close the right thru lane after the temporary signal is installed. The extra space is needed to reconstruct the outside or east curb. A minimum of two thru lanes will be maintained at all times.

### Project Construction Hotline

Call 952-826-0394 to hear project updates; you may also leave a voicemail message. The hotline will be checked daily.

### Safety

Safety is our number one concern. Please use caution when traveling the area on foot or by car. Children are fascinated with construction operations, so please keep an eye on them.

### Who to Contact in an Emergency

911 for life or property-threatening emergencies.

The City of Edina and Thomas & Sons, Inc. thank you for your patience and cooperation throughout the project.

Sincerely,

Andrew Plowman, PE  
Project Manager  
WSB & Associates, Inc.
